

Course Specification

(Bachelor)

Course Title: **Mobile Applications Development**

Course Code: **415CIS-3**

Program: **Bachelor of Information Systems**

Department: **Information Systems**

College: **CSIS**

Institution: **Najran University**

Last Revision Date: **01/02/2025**

Table of Contents

| | |
|---------------------------------------------------------------------------------------------|----|
| A. General information about the course: | 3 |
| B. Course Learning Outcomes (CLOs), Teaching Strategies and Assessment Methods | 4 |
| C. Course Content | 10 |
| D. Students Assessment Activities | 11 |
| E. Learning Resources and Facilities | 11 |
| F. Assessment of Course Quality | 12 |
| G. Specification Approval | 12 |

A. General information about the course:

1. Course Identification

1. Credit hours: (3 hours)

2. Course type

A. ☐ University ☐ College ☒ Department ☐ Track ☐ Others
B. ☒ Required ☐ Elective

3. Level/year at which this course is offered: (Level 8)

4. Course General Description:

This is an advanced programming course that teaches students the skills necessary to develop mobile applications and also provides extensive hands-on practice by creating multiple real life applications. Students will learn about the mobile application development framework and its design patterns, various user interface elements, event handling, database connectivity, web connectivity, device to device messaging, cloud to device messaging, interfacing with third party libraries, geolocation APIs and interfacing with device sensors.

5. Pre-requirements for this course (if any):

6. Co-requisites for this course (if any):

7. Course Main Objective(s):

Students will learn how to develop software for mobile devices.

2. Teaching mode (mark all that apply)

| No | Mode of Instruction | Contact Hours | Percentage |
|----|-----------------------|---------------|------------|
| 1 | Traditional classroom | 50 | 100% |
| 2 | E-learning | | |

| No | Mode of Instruction | Contact Hours | Percentage |
|----|----------------------------------------------------------------------------------------------------|---------------|------------|
| 3 | Hybrid <ul style="list-style-type: none"> Traditional classroom E-learning | | |
| 4 | Distance learning | | |

3. Contact Hours (based on the academic semester)

| No | Activity | Contact Hours |
|-------|-------------------|---------------|
| 1. | Lectures | 20 |
| 2. | Laboratory/Studio | 25 |
| 3. | Field | |
| 4. | Tutorial | 5 |
| 5. | Others (specify) | |
| Total | | 50 |

B. Course Learning Outcomes (CLOs), Teaching Strategies and Assessment Methods

| Code | Course Learning Outcomes | Code of PLOs aligned with the program | Teaching Strategies | Assessment Methods |
|------|-----------------------------------------------------------------|---------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.0 | Knowledge and understanding | | | |
| 1.1 | Use flutter framework in developing hybrid mobile applications. | K1,K3,K2 | <p>Lectures, active learning, collaborative and cooperative learning and independent study assignments are used as teaching strategies.</p> <ul style="list-style-type: none"> Showing and delivering PPT presentation in the class. Using white board to explain important points in more detail. | <p>Following methods are used to assess student's knowledge acquire in this course.</p> <ul style="list-style-type: none"> Quizzes Assignments Lab Exam Midterm Final Exam |

| Code | Course Learning Outcomes | Code of PLOs aligned with the program | Teaching Strategies | Assessment Methods |

C. Course Content

| No | List of Topics | Contact Hours |
|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| 1. | Introduction of hybrid application development | 1 |
| 2. | Flutter vs ONIC vs react native | 2 |
| 3. | Introduction to Flutter | 2 |
| 4. | Introduction To Dart The reason why Dart holds the fort strong. Installing Visual Studio Code and the Dart Plugin. Installing Dart SDK. Writing the first Dart Program. | 4 |
| 5. | Setting up Flutter Downloading/Cloning the Flutter SDK. Installing Flutter Plugin within VS Code. Understanding the structure of a Flutter Project. Building a simple app from scratch. | 1 |
| 6. | Introducing Widget Widgets and their role in a Flutter app. The MaterialApp and Scaffold widget. AppBar. FloatingActionButton. More widgets - Text, Center and Padding. Hot Reload and Hot Restart, the tricks of the trade. Recreating the Default Flutter App (UI Only). | 4 |
| 7. | Introducing Widget Widgets and their role in a Flutter app. The MaterialApp and Scaffold widget. AppBar. FloatingActionButton. More widgets - Text, Center and Padding. Hot Reload and Hot Restart, the tricks of the trade. Recreating the Default Flutter App (UI Only). | 4 |
| 8. | Common Widget in Flutter Containers and their role. Importing images from a network. Importing images as assets. Adding icons to widgets. Understanding Row and Column. ListView and ListTile. Building views using ListView.builder. Inkwell and its importance. | 4 |
| 9. | Stateless and Stateful Widgets- The Concept Stateless vs. Stateful widgets. Defining a 'State'. The setState() method. Returning to the Default Flutter App. | 4 |
| 10. | Navigating through Navigation | 3 |

| | | |
|-------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| | Navigator and routes. Applying push() using MaterialPageRoute. Applying pop(). Declaring parameter-less routes (pushNamed()) in MaterialApp widget. | |
| 11. | Handling User Input. Using TextField. Handling changes to a TextField. Pass retrieved values using Navigator. | 3 |
| 12. | User Interface Applying ThemeData. The Basic Screen Layout. Applying Custom Font. | 5 |
| 13 | Asynchronous Functions The 'Future' function. 'async' and 'await'. | 5 |
| 14 | Working with Remote Data The 'http' package. Model Class and JSON parsing. Dising Remote Data. (NEWS API). | 5 |
| 15 | Using 3rd Party Packages The 'url_launcher' package. Adding onTap() to NEWS API. | 3 |
| Total | | 50 |

D. Students Assessment Activities

| No | Assessment Activities * | Assessment timing (in week no) | Percentage of Total Assessment Score |
|----|-------------------------|-----------------------------------|-----------------------------------------|
| 1. | Quizzes | 5th, 11t | 10% |
| 2. | Midterm | 6th, 10th | 15% |
| 3. | Assignment | 12th | 10% |
| 4. | Lab Performance | Throughout semester | 15% |
| 5. | Lab Final Exam | 14th | 10% |
| 6. | Final Exam | 16th | 40% |

*Assessment Activities (i.e., Written test, oral test, oral presentation, group project, essay, etc.).

E. Learning Resources and Facilities

1. References and Learning Resources

| | |
|---------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Essential References | Reto Meier, "Professional Android 4 Application Development", John Wiley & Sons, Inc, 3rd edition (2012), ISBN: 978-1-118-10227-5 Beginning App Development with Flutter: Create Cross-Platform Mobile Apps Book by Rap Payne |
| Supportive References | To be determined by the instructor. |
| Electronic Materials | TutorialPoint.com/android |
| Other Learning Materials | YouTube videos about Android |

2. Required Facilities and equipment

| Items | Resources |
|-------------------------------------------------------------------------------------------|-------------------------------------------|
| facilities (Classrooms, laboratories, exhibition rooms, simulation rooms, etc.) | Classrooms, laboratories |
| Technology equipment (projector, smart board, software) | projector, board, android studio software |
| Other equipment (depending on the nature of the specialty) | |

F. Assessment of Course Quality

| Assessment Areas/Issues | Assessor | Assessment Methods |
|---------------------------------------------|--------------------------|--------------------|
| Effectiveness of teaching | Students | Direct |
| Effectiveness of Students assessment | Instructor | Direct |
| Quality of learning resources | Instructor | Direct |
| The extent to which CLOs have been achieved | Faculty, Program Leaders | Direct |
| Other | | |

Assessors (Students, Faculty, Program Leaders, Peer Reviewers, Others (specify))

Assessment Methods (Direct, Indirect)

G. Specification Approval
