

Annual Student Activity Plan – Department of Biology Academic Year 1446-1447 AH

Introduction

The Student Activities Committee in the Department of Biology aims to enhance students' participation in university activities and develop their skills through a diverse range of academic, cultural, and sports events. This plan has been developed based on committee discussions and decisions, considering available resources and collaboration with relevant entities.

First: Objectives of the Plan

1. Encourage student participation in university activities.
2. Promote activities that do not require financial support.
3. Utilize department and college resources to organize events.
4. Develop students' scientific, cultural, and sports skills.
5. Expand collaboration between the department and other student committees at the college level.

Second: Key Areas and Proposed Activities

1. Academic and Scientific Activities

- Organizing scientific seminars conducted by faculty members of the department.
- Arranging a library visit to introduce students to available academic resources and how to utilize them.
- Participating in workshops organized by the College's Student Activities Committee.
- Following up on scientific activity announcements and encouraging students to participate.

2. Cultural and Social Activities

- Participating in cultural events organized by the college and university.

3. Sports and Recreational Activities

- Forming a department-specific football team and organizing matches with other departments.
- Organizing a table tennis and board games tournament in the department's sports facility.
- Participating in collective sports activities held at the college and university levels.
