Course Specification

| | |
|---------------------|--------------------------------------|
| Course Title: | Differential Equations (2) |
| Course Code: | 242Math-3 |
| Program: | B.Sc. of Mathematics Sciences |
| Department: | Mathematical Sciences |
| College: | Art and Sciences |
| Institution: | Najran University |
| Version: | 1 |
| Last Revision Date: | 07-05-2023 |

Table of Contents:

| Content | Page |
|---------------------------------------------------------------------------------------|------|
| A. General Information about the course | 3 |
| 1. Teaching mode (mark all that apply) | 3 |
| 2. Contact Hours (based on the academic semester) | 3 |
| B. Course Learning Outcomes (CLOs), Teaching Strategies and Assessment Methods | 4 |
| C. Course Content | 4 |
| D. Student Assessment Activities | 5 |
| E. Learning Resources and Facilities | 5 |
| 1. References and Learning Resources | 5 |
| 2. Required Facilities and Equipment | 5 |
| F. Assessment of Course Quality | 6 |
| G. Specification Approval Data | 6 |

A. General information about the course:

| Course Identification | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Credit hours: | 3 |
| 2. Course type | |
| a. | University <input type="checkbox"/> College <input type="checkbox"/> Department <input checked="" type="checkbox"/> Track <input type="checkbox"/> Others <input type="checkbox"/> |
| b. | Required <input checked="" type="checkbox"/> Elective <input type="checkbox"/> |
| 3. Level/year at which this course is offered: | 4/2 |
| 4. Course general Description | |
| <p>This course covers: the different methods of solution of second differential equation and system of equations are presented. Like variation of parameters, transformation to standard form, decompose the operator etc. Series Solutions of second order differential equations are also studied.</p> | |
| 5. Pre-requirements for this course (if any): | |
| Differential Equations (1) (240Math-3) | |
| 6. Co- requirements for this course (if any): | |
| 7. Course Main Objective(s) | |
| <p>The main objective of the course is to study of the existence and uniqueness of the solutions for differential ordinary equations and methods of solving them.</p> | |

1. Teaching mode (mark all that apply)

| No | Mode of Instruction | Contact Hours | Percentage |
|----|--------------------------------------------------------------------------------------------------------|---------------|-------------|
| 1. | Traditional classroom | 3 | 100% |
| 2. | E-learning | | |
| 3. | Hybrid <ul style="list-style-type: none"> • Traditional classroom • E-learning | | |
| 4. | Distance learning | | |

2. Contact Hours (based on the academic semester)

| No | Activity | Contact Hours |
|----|-------------------|---------------|
| 1. | Lectures | 45 |
| 2. | Laboratory/Studio | |
| 3. | Field | |
| 4. | Tutorial | |
| 5. | Others (specify) | |
| | Total | 45 |

B. Course Learning Outcomes (CLOs), Teaching Strategies and Assessment Methods

| Code | Course Learning Outcomes | Code of CLOs aligned with program | Teaching Strategies | Assessment Methods |
|------|-------------------------------------------------------------------------|-----------------------------------|----------------------------------------------------------------------------------------------------------------|--------------------------------------|
| 1.0 | Knowledge and understanding | | | |
| 1.1 | Memorize the basic concepts about differential equations effectively. | K1 | Lecture Cooperative learning Problem solving Brain storming Self-Learning | Assignments Midterm Final Exam |
| 1.2 | List the solutions of differential equations in a sequential way. | | | |
| 2.0 | Skills | | | |
| 2.1 | Determine the appropriate method for solving the differential equations | S2 | Lecture Cooperative learning Problem solving Brain storming Self-Learning | Assignments Midterm Final Exam |
| 2.2 | Formulating mathematical proofs clearly and explicitly. | S3 | | |
| 3.0 | Values, autonomy, and responsibility | | | |
| 3.1 | Independence and continuous self-learning. | V2 | Assigning each group of students to collect and write topic in this course and explain it to their classmates. | Oral Exam Rubrics |

C. Course Content

| No | List of Topics | Contact Hours |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| 1. | Picard Method for successive approximation, Lipschitz condition | 4 |
| 2. | The existence and uniqueness of the solution, Gronwall's inequality, Dependence the solution of the initial value problem on the initial condition | 7 |
| 3. | Linear systems with constant coefficients: Homogeneous, Non Homogeneous | 8 |
| 5 | Linear differential equations of second order with variable coefficients :variation of parameters, transformation to standard form, decompose the operator, Abel's method, replacement of the independent variable, exact equation, adjoint equation, reduction of order, Series . | 26 |
| Total | | 45 |

D. Students Assessment Activities

| No | Assessment Activities * | Assessment timing (in week no) | Percentage of Total Assessment Score |
|----|-------------------------|--------------------------------|--------------------------------------|
| 1. | Midterm Exam | 6-8 | 20 |
| | | 11-13 | 20 |
| 2. | Assignments & Quizzes | During classes | 10 |
| 3. | Final Exam | 16-18 | 50 |

*Assessment Activities (i.e., Written test, oral test, oral presentation, group project, essay, etc.)

E. Learning Resources and Facilities

1. References and Learning Resources

| | |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Essential References | - Hassan Mustafa Alauidy , Abdel Wahab Abbas Rajab and Sana Ali Zare (2006) , Library of Al-Roshd , Differential Equations - Part II |
| Supportive References | - Kent; Nagle; Saff; Snider, Fundamentals Of Differential Equations And Boundary Value Problems (Sixth Edition), Amazon - Earl D. Rainville, Phillip E. Bedient, Elementary Differential Equations (Seventh Edition) , Macmillan Publishing Company |
| Electronic Materials | http://www.nu.edu.sa/gui/SubDefault.aspx?PageId=696 http://lib.nu.edu.sa/digitalLibrary.aspx?PageId=1494 http://lib.nu.edu.sa/SubLibrary.aspx?PageId=1491 https://twitter.com/math1427?lang=ar |
| Other Learning Materials | |

2. Required Facilities and equipment

| Items | Resources |
|------------------------------------------------------------------------------------|-------------------------------------------------------------|
| facilities (Classrooms, laboratories, exhibition rooms, simulation rooms, etc.) | Classroom with 30 seats. |
| Technology equipment (projector, smart board, software) | - Blackboard Platform - Mathematica Program Projector |

| Items | Resources |
|---------------------------------------------------------------|-----------|
| Other equipment (depending on the nature of the specialty) | N/A |

F. Assessment of Course Quality

| Assessment Areas/Issues | Assessor | Assessment Methods |
|------------------------------------------------|---------------|-------------------------------------|
| Effectiveness of teaching | Student | Student Questionnaire (Indirect) |
| Effectiveness of students assessment | Peer Reviewer | Rubrics (Indirect) |
| Quality of learning resources | | |
| The extent to which CLOs have been achieved | Faculty | Direct |

Assessor (Students, Faculty, Program Leaders, Peer Reviewer, Others (specify))

Assessment Methods (Direct, Indirect)

G. Specification Approval Data

| | |
|---------------------------|-----------------------------------|
| COUNCIL /COMMITTEE | Council of Mathematics Department |
| REFERENCE NO. | 14441017-0208-00014 |
| DATE | 17-10-1444H |
