#### 3. Level/year at which this course is offered: ( 3<sup>th</sup> )

#### 4. Course General Description:

This course is about object-oriented programming concepts using python programming language. It includes Modules and Packages, Exceptions, Strings, and concepts of Object-Oriented Programming which include class, object, property, method, encapsulation, inheritance, grammar vs class, superclass, subclass. This course is essential for obtaining the professional certificate PCAP (PCAP-31-03), and updated periodically according to the certificate exam.

#### 5. Pre-requirements for this course (if any):

138CIS-3

#### 6. Co-requisites for this course (if any):

None

#### 7. Course Main Objective(s):

This course is intended to:

- Provide students with a good understanding of concepts and terminology related to the OOP.
- Enable students to translate the real computing problems into an object-oriented solution.
- Develop the programming skills and experience needed to write object-oriented programs within the Python language.
- Enable students to communicate with others effectively to solve real computing Problems.

### 2. Required Facilities and equipment

Items	Resources
<b>facilities</b> (Classrooms, laboratories, exhibition rooms, simulation rooms, etc.)	Classroom with a suitable size for students
<b>Technology equipment</b> (projector, smart board, software)	Whiteboard/projector
<b>Other equipment</b> (depending on the nature of the specialty)	None

## F. Assessment of Course Quality

Assessment Areas/Issues	Assessor	Assessment Methods
Effectiveness of teaching	Student	Direct: Questioners
Effectiveness of Students assessment	Teacher Audit and review committees	Direct: CW & HW Exercises and short quizzes Projects Mid and final paper exams.
Quality of learning resources	Teachers and course description committees	Indirect: Benchmarking Self-evaluation

Assessment Areas/Issues	Assessor	Assessment Methods
		External evaluation
The extent to which CLOs have been achieved	Teacher	Direct: Measuring the learning outcomes
